

SPECIAL NEWS BY WIRE RECEIVED UNTIL 3.00 P. M. EVERY DAY.

## THE TORRID WAVE

Extends Over the Entire Country from East to West.

Hundreds of People are Dying

From the Effects of the Sun's Merciless Rays. Weather Bureau Promises No Relief for Next Forty-eight Hours. The Heat Unparalleled.

New York, July 2.—The torrid wave is still on here with no prospect of relief. During the night hundreds of cases of prostration were reported. The weather bureau promises no relief for at least forty-eight hours.

## GETTING HOTTER

At Baltimore With No Prospect of Relief—Many Prostrations.

Baltimore, July 2.—At 8 o'clock this morning the thermometer showed 94 degrees at the city observatory. The deaths yesterday were 12.

## HOSPITAL CROWDED

At the Victim of the Awful Heat in New York

New York, July 2.—In the poorer districts of the city who could sleep in the open air are suffering from the heat. The hospitals are crowded with victims.

## ON DOORSTEPS

The People in Aristocratic Boston Slept Last Night.

Boston, Mass., July 2.—All conveniences were cast aside in the streets and men are going about with just a shirt on as decency will permit. A hot wind is blowing this morning which promises little relief. People are on doorsteps and in the open air when they could. A milk famine is arising much suffering among children.

## IN WASHINGTON

And Other Eastern Points the Heat is Greater Than Yesterday.

Washington, July 2.—There is no prospect of the heat in the east to be less than in the lake regions except temporary, occasioned by a breeze today. Philadelphia reports fourteen deaths this morning, and a higher morning temperature today than at the same time yesterday.

## THE THERMOMETER

At Elizabeth, N. J., Registered One Hundred and Six Degrees.

Elizabeth, N. J., July 2.—An official thermometer this morning at 10 o'clock registered 106 degrees. Work shops and foundries are shut down, and business is suspended.

## TWENTY-ONE DEATHS

And Fifty-Three Prostrations is a Day's Record at Pittsburgh

Pittsburgh, July 2.—Twenty-one deaths and fifty-three prostrations constituted this city's record for twenty-four hours. There are fifteen unidentified bodies at the morgue.

## WORSE AND WORSE

Becomes the Situation in the City of New York.

New York, July 2.—The terrific heat increased as the morning advanced. The official thermometer at noon recorded 97 degrees; in the streets the mercury climbed to 103. Men, women and children are dropping like flies through greater New York, judging from the hospital reports. The prostrations are running up in the

hundreds. Fifty deaths have occurred in the past twelve hours. People are alarmed as the torrid wave is proving more deadly than the plague. There have been several cases of sudden dangerous insanity today, one man without a word of warning jumped from the bridge train and was severely injured. Another in William Street chased pedestrians with a stick but he was overpowered before he could do harm to anyone.

## TEMPERATURE MODIFIED

Somewhat During the Day in Western Cities.

Cleveland, July 2.—The heat situation in the West is improved today. Chicago and St. Louis and many other cities have been refreshed by showers and the temperature is lower.

## MIGHT HAVE BEEN

But It Seemed to Have Been Equally Warm Here in Lima

Washington, July 2.—The hottest place in the country yesterday was Phoenix, Ariz., where the thermometer registered 104 in the shade. The coolest place was Kalispell, Mont., which recorded a temperature of 65 degrees.

## WEARY AND REMORSEFUL

The Two War Department Clerks Who Eloped are Returning Home.

Winnipeg, July 2.—Weary of their exile and bitterly remorseful, Mrs. Clara Atherton Model and William Moore Jr., the two prominent war department clerks who eloped from Washington D. C. a short time ago, reached here today on their way home. They continued their long journey after making a very brief stop. Mrs. Model will return to her mother and department clerks who eloped from Washington D. C. a short time ago.

## New York Fairly Disaster.

New York, July 2.—Monday was the hottest July 1 on record. The thermometer at the weather office reached 93 degrees, one degree hotter than the preceding day. The records show that only two days in the last 30 years had a higher temperature, July 9, 1875, and July 3, 1894, when the thermometer reached 93 degrees. Between 2 a. m. and midnight there were reported 57 deaths and 141 prostrations in the boroughs of Manhattan and the Bronx. From midnight to 10 p. m. 21 deaths and 36 prostrations had been reported in Brooklyn. Although the weather bureau shows the maximum was 93, this does not indicate the heat on the streets. Many thermometers registered 103 and all over the city it was 100 on the street level. Suffering was intense in the tenement district.

## Storm at Cincinnati.

Cincinnati, July 2.—The spell of torrid heat which held sway here during the past week and which left death and prostration in its wake was broken by a squall. The storm came suddenly from the southeast and for a time blew at the rate of 60 miles an hour. This was followed by a thunder shower and the thermometer dropped to 75. It was a merciful relief. The storm played havoc with telephone and telegraph wires. The maximum temperature was 96 at the government observation station and 99 on the street. There were five deaths from heat.

## Cashier Surrendered.

Birmingham, Ala., July 2.—George Little, formerly cashier of the Shelby County bank at Montevallo, Ala., came to Birmingham and surrendered himself to Sheriff Burgin and later was released on \$1,000 bond. The Shelby County bank recently closed its doors and it was alleged that Little had embezzled \$10,000 of the bank's funds. Mr. Little declined to make any statement for publication other than to say he came of his own volition and surrendered to the authorities.

## GOMEZ'S STATEMENT

Is That He Merely Came to the United States to Visit.

New York, July 2.—General Maximino Gomez issued a statement today, in which he says that the object of his visit was to meet Estrada Palma, his old friend and to visit Secretary Root, and President McKinley.

## KRUGER NOT COMING.

Trip Abandoned Because of Age and Ill Health.

The Hague, July 2.—Former President Kruger has abandoned his projected American tour owing to old age and feeble health.

## Persia Prohibits Grain Exports.

Washington, July 2.—The state department has received from Vice Consul General Tyler at Teheran a copy of a note from the Persian minister of foreign affairs reminding Mr. Tyler that an order of the Persian government issued last fall, which prohibited the export of grain from Persia, is still in force and requesting him to give strict instructions to Americans to abstain from exporting grain from that country. Persia especially the southern portion has suffered from drought and other crop-damage conditions, and this order, it is stated, was issued to preserve the entire crop harvested for home consumption.

## Odd Fellows' Hall Destroyed.

Cincinnati, July 2.—The 2-story Odd Fellows' hall was practically destroyed by an explosion. The lower floor was occupied by Piers & Little hardware and the upper story by the Odd Fellows. The building caught fire from the gasoline plant and the flames frightened the proprietors and some of the other men from the store. The gasoline tank exploded, destroying the building. Several were injured, none seriously. Loss \$70,000.

## Three Deaths at Cleveland.

Cleveland, July 2.—The highest temperature recorded by the weather bureau was 92. At night a heavy wind came from the west and cooled the atmosphere considerably. Three deaths occurred from heat and 15 prostrations. The dead are William Reid of Cleveland, James Kregel a farmer of Orange township, and Owen McCloane of Buffalo.

## WEARY AND REMORSEFUL

The Two War Department Clerks Who Eloped are Returning Home.

Winnipeg, July 2.—Weary of their exile and bitterly remorseful, Mrs. Clara Atherton Model and William Moore Jr., the two prominent war department clerks who eloped from Washington D. C. a short time ago, reached here today on their way home. They continued their long journey after making a very brief stop. Mrs. Model will return to her mother and department clerks who eloped from Washington D. C. a short time ago.

## New York Fairly Disaster.

New York, July 2.—Monday was the hottest July 1 on record. The thermometer at the weather office reached 93 degrees, one degree hotter than the preceding day. The records show that only two days in the last 30 years had a higher temperature, July 9, 1875, and July 3, 1894, when the thermometer reached 93 degrees. Between 2 a. m. and midnight there were reported 57 deaths and 141 prostrations in the boroughs of Manhattan and the Bronx. From midnight to 10 p. m. 21 deaths and 36 prostrations had been reported in Brooklyn. Although the weather bureau shows the maximum was 93, this does not indicate the heat on the streets. Many thermometers registered 103 and all over the city it was 100 on the street level. Suffering was intense in the tenement district.

## Storm at Cincinnati.

Cincinnati, July 2.—The spell of torrid heat which held sway here during the past week and which left death and prostration in its wake was broken by a squall. The storm came suddenly from the southeast and for a time blew at the rate of 60 miles an hour. This was followed by a thunder shower and the thermometer dropped to 75. It was a merciful relief. The storm played havoc with telephone and telegraph wires. The maximum temperature was 96 at the government observation station and 99 on the street. There were five deaths from heat.

## Cashier Surrendered.

Birmingham, Ala., July 2.—George Little, formerly cashier of the Shelby County bank at Montevallo, Ala., came to Birmingham and surrendered himself to Sheriff Burgin and later was released on \$1,000 bond. The Shelby County bank recently closed its doors and it was alleged that Little had embezzled \$10,000 of the bank's funds. Mr. Little declined to make any statement for publication other than to say he came of his own volition and surrendered to the authorities.

Washington, July 2.—Plans have been completed for the return of Mrs. McKinley to Canton Friday. The President and family intend to remain in Canton until September 1st.

## LONG

Struggle Expected by Strikers

Who Went Out

To Fight the Big Steel Trust Yesterday.

The Other Side, However, Anticipates an Early Settlement.

Nearly All of the Independent Steel Mills are Said to Have Signed the Association's New Scale.

Pittsburgh, July 2.—The first day of the strike troubles between the Amalgamated Association of Iron, Steel and Tin Workers of one side and the American Sheet Steel company and the American Steel & Wire company, constituent companies of the United States Steel corporation on the other, saw all of the union plants idle and many workers from open mills, who are members of the Amalgamated Association on strike.

Association officials say they are satisfied with the situation and claim they will be able to control between 15,000 and 16,000 men in the two companies. No move has been made by either side and it is doubtful if anything decisive will be done in at least a week. Both men and management agree that a shutdown for about two weeks is necessary which, a settlement is reached or not, in the meantime the association officials will make every preparation for a long struggle.

While officials of neither side will venture a prediction, much quiet talk is being indulged in the trend of which leads to the belief that before the usual summer shutdown of the mills has expired a settlement will have been reached.

The Amalgamated officials do not consider the negotiations with the steel trust company broken off but still hoping and may be renewed at any time. I. W. Jents, manager of the company, intimated that the matter might be taken up any day and gave the inference that a settlement would be arrived at soon.

Reports received at the general office of the Amalgamated Association show that nearly all the independent mills have signed the new wage scale.

## BUCKEYE

Orators Speak in City of Detroit

At the Social and Political Conference.

"Should Political Reform Precede Social and Economic Reform?" Discussed by ex-Congressman Lentz.

Detroit, July 1.—Despite the oppressive heat the session of the National Social and Political conference was better attended than any preceding one. Ex-Congressman John J. Lentz of Ohio was the first speaker, discussing "Should Political Reform Precede Social and Economic Reform?" Mr. Lentz said: "Political reform must precede social and economic reforms, for at present political parties are not organized as reform forces. With the machines of each party ready to commit any crime to secure preferment and power, there is no hope to secure any reform from them. We must educate the masses." Mayor Jones of Toledo had for his subject "Are Political Parties Necessary or Are They Obstacles to Progress?" In the evening "Best Methods and What Can Be Done With Them" formed the theme of discussion, and Hon. Frank S. Monnett of Ohio was the principal speaker.

## The Weather.

Washington, July 2.—Ohio, local showers and thunderstorms tonight, with somewhat lower temperature in northern portion. Wednesday, partly cloudy, probably thunderstorms and cooler in western portion.

## THE DEFENSE

Now Having Its Inning in the McClung Murder Case.

Lebanon, Ohio, July 2.—The defense is now having its inning in the case of John McClung the aged recluse, who is charged with the murder of his wife. A number of witnesses have testified that they never knew of any unpleasantness between the defendant and his wife.

## CITY GETS THE MONEY

Paid by the Telephone Company for the Franchise.

Springfield, July 2.—The city council sprung a novelty last night by holding an action of telephone franchises. The bidders were the Citizens, Independent and Home Telephone companies. The Home people got the franchise bidding \$2,500, for same, and will erect an independent system for fire department.

## VIOLENT

Wind Storm Passes Over Kentucky.

Farm Houses Wrecked and Loss of Life Feared.

Man and Horse Struck and Killed by Lightning During the Progress of the Storm in Powell's Valley.

Madison, Ky., July 2.—A violent wind storm that passed over this section of Kentucky last night, caused an immense amount of damage in Powell's Valley, ten miles from here. Many farm houses were blown down and it is believed that later news will bring in reports of loss of life.

Perin Smith and his horse were struck by lightning in the valley while the storm was raging and both were killed.

## LOCOMOTIVE BUILDER

Jacob S. Rogers Found Dead in His Room Today, a Victim of Heat.

New York, July 2.—Jacob S. Rogers the famous builder of locomotives fell a victim to the terrible heat today. He was found dead in his room, at the Union League club, at eleven o'clock this morning. The lifeless body lay

on the floor and the indications point to the fact that he had made an attempt to crawl for help when death overtook him. He was one of the richest men in New Jersey, his wealth being estimated at ten million dollars.

Paris, July 2.—The chamber of deputies voted supplementary credits amounting to 80,000,000 francs to defray the expenses of France's Chinese expedition. M. Rene Viviani, radical Socialist, moved an amendment calling upon the government to relinquish the protectorate of missionaries in the far east. This was rejected by a vote of 425 to 109.

Clark Challenges Lipton. Glasgow, July 2.—Kenneth M. Clark, owner of the Kariat, has sent a challenge to Sir Thomas Lipton for a trial between the Shamrock II and the Kariat, to be sailed over courses similar to the course for the Americas cup and on the American measurement, in order to decide which yacht shall be sent a challenger to American waters.

William Was Pleased. Berlin, July 2.—Emperor William has telegraphed the presidents of the French and German automobile clubs expressing his pleasure at the sociable co-operation of the French and German racers, and at the happy ending of the Paris-Berlin race.

Hurricane in New South Wales. Melbourne, July 2.—Disastrous hurricanes on the coast of New South Wales have paralyzed shipping. Two vessels have been wrecked and 10 persons drowned.

## FLAMES

Add Horror to a Water Famine in Huntington, W. Va.

Adelphia Hotel is in Ruins

And Residences in its Immediate Vicinity are Torn Down to Prevent the Fire From Spreading—No Water in the City's Reservoirs.

Huntington, W. Va., July 2.—The Adelphia hotel located in the heart of the city is burning and there is not a gallon of water in the city reservoir. The whole town is threatened. Since 9 o'clock last night all the reservoirs have been empty, as the pipes leading to the station are clogged with mud. The people are suffering and all the industries in the city are idle with but few exceptions and through passenger trains arriving here are held until shifting engines run to Ceredo and Catlettsburg the nearest towns, and loss so far is estimated at \$50,000.

## HOUSES TORN DOWN

To Prevent Spreading of the Hungry Flames From the Hotel.

Huntington, W. Va., July 2.—The Adelphia hotel is now in ruins and there is no water here yet. Several handsome residences that were situated near the hotel were torn down to prevent a spreading of the fire. The Catlettsburg, the nearest towns, and loss so far is estimated at \$50,000.

## TWENTY INJURED

In a Rear End Collision On the Pennsylvania at New Castle.

New Castle, Pa., July 2.—A passenger train ran into the rear end of a freight on the Pennsylvania railroad this morning, twenty people were injured but no one killed. Those seriously hurt are, Wm. McDoree, former, Thos. Gumphrey a passenger and John Barnhart, engineer.

Live Stock Markets. Chicago, July 2.—Cattle 2,500 steady, hogs 16,000, 5 cents lower; sheep 12,000 steady.

## RUSH

Of Squatters Soon to Start

For the Lands

To be Opened by the U. S. Government.

Company Formed to Take Possession of Kiowa and Comanche Land.

Counsel Employed to Fight for Their Claims in the Courts Under Provisions of the Homestead Law.

Denison, Tex., July 2.—A company of Texas, Indian Territory and Oklahoma men has been formed to make a rush for the lands of the Kiowa and Comanche country when they are opened to settlement. They have employed Richard Morgan of Perry, O. T., as counsel, and if necessary will fight their case in the courts. They have been given legal opinions that the Kiowa and Comanche country has been purchased by the government; that it is public domain and open for settlement by the citizens of the United States, that it can only be subject to the homestead laws of the United States and that the homestead laws provide but one means of selecting homes, and that it is to move on a claim, stake it off and own it as a homestead, and that there is no provision in law for selecting claims by drawing lots.

## ANOTHER BANK

Went to the Wall Today in Buffalo, New York.

Buffalo, N. Y., July 2.—The Niagara National Bank suspended business this morning. It had a capital of \$100,000 and deposits amounting to one million. This bank was controlled by the same interests as the National City Bank, that recently suspended.

To Test the Anti-Gambling Act. Little Rock, July 2.—The first prosecution under the anti-gambling act passed by the recent legislature was begun when R. A. Furth was arraigned on the charge of running a gambling house. The penalty is \$1,000 fine, half of which goes to the informant. Furth's arrest, it is understood, was for the purpose of testing the validity of the anti-gambling act, for which purpose some of the best legal talent in Arkansas has been retained.

**Hood's Pills**

Do not gripe nor irritate the alimentary canal. They act gently yet promptly, cleanse effectually and

**Give Comfort**

Sold by all druggists. 25 cents.

\$15.00, \$12.40, \$10.30, \$6.55.

These are the fares to Buffalo and return for the Pan-American Exposition via Chicago and Erie railroad. Stopovers allowed at Chautauque Lake. F. C. McCoy, Agent.

**CASTORIA.**

Beers the Castoria.

**LOW RATES TO THE CHRISTIAN LEADERSHIP CONVENTION.**

The C. L. & D. R. and its connections will sell tickets at half rate to Cincinnati and return on July 7th and 17th, also on the 5th, from New York points on account of the Christian Leadership Convention.

You, some point when you buy Chamberlain's Cough, Colic and Diarrhoea Remedy. Why? Well, you will find your money if you are not satisfied after using it. It is every-where admitted to be the most successful remedy in use for colic complaints and it is the only one that never fails. It is a pleasant taste and reliable. July 1-4m

**CHAUTAUQUE EXCURSIONS.**

July 5th and 26th. The Chicago & Erie R. R. will sell tickets to Chautauque Lake and return at one fare for the round trip on July 5th and 26th. Tickets good returning until August 24th and 25th. For information see agents or write. F. C. McCoy, Agent.

**WHAT TWO CENTS WILL DO.** It will bring relief to sufferers from indigestion or constipation, even in the worst cases. This is about what one cent of Foley's Kidney and Bladder Pills is worth a trial.

H. F. Vorkamp, cor Main and North streets.

**AVOID THE HEAT AND DUST**

When You Go East by Traveling via D. & C. the Coast Line.

The new steel passenger steamers leave St. Ignace, Mackinac, Cheboygan and Alpena four times per week for Detroit, Toledo, Cleveland, Buffalo, Pittsburgh, New York, Cincinnati, and all points East, South and Southeast.

A. A. SCHANTZ G. P. A., Detroit, Mich.

**The Best Liniment for Strains.** Mr. P. H. Wells, the merchant at 100 Park Lane, London, N. Y. says: "I always recommend Chamberlain's Pain Balm as the best liniment for strains. I used it last winter for a severe lameness in the side, resulting from a strain, and was greatly pleased with the quick relief and cure it effected." For sale by Wm. M. Melville, old post office corner.

In Sweden the traveler may learn at which railway stations meals are served by huge signs, bearing a crossed knife and fork which are posted along the road on each side of the stopping place.

Science has found that rheumatism is cured by uric acid in the blood. This poison should be excreted by the kidneys. Foley's Kidney Cure always makes them well.

H. F. Vorkamp, cor Main and North streets.

"Archie," the huge elephant that carried the Prince of Wales through India during his visit there nearly thirty years ago, died last week near London. The animal was over seventy years old.

**Heartburn.**

When the quantity of food taken is too large or the quality too rich, heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by Wm. M. Melville, old post office corner.

**How They Do It.**

It had lost his race and naturally "he was disgraced." "It's too bad," he said, "that this is not an inflection case." "Why?" they asked. "Because," he replied, "if it was an inflection case, I could just withdraw it and take it from one judge to another until I found one who took my view of it."—Chicago Post.

**SUBSTITUTE FOR COAL.**

Successful Test of an Artificial Fuel in Wilmington.

ESTIMATED COST AT \$2.50 A TON.

Chemically Prepared Earth, Treated by a Secret Process, Is Said to Produce a Heat Superior to Coal—Process and Cost of Manufacture—Invention of a Chemist.

Dr. Henry W. Morrow, a Wilmington (Del.) chemist, who has made valuable inventions in the manufacture of wood fiber recently gave a public exhibition of his new artificial fuel in his laboratory in Wilmington, and it was successful in every particular. The correspondent of the Philadelphia Press saw the fuel molded into small bricks and placed in an ordinary cook stove, where within a few minutes there was a fire at white heat.

The fuel is made of ordinary earth, treated with a chemical process. Dr. Morrow used bricks made in a hand mold, but estimates that their cost on a large scale will be at \$2.50 a ton, with a good profit.

The fuel for ordinary domestic purposes, he says, will burn from four to five hours longer than coal, and under forced draft, such as on steamships, locomotives and in pulp-mill establishments, it will burn from two to three hours longer than coal.

Any kind of earth except sand will do. Some of the bricks burned the other day were made of earth taken from the yard of Dr. Morrow's home at Wilmington, some from along the bank of the Christina river and from other places about the city.

The bricks for domestic use weigh about three ounces, of which 3 per cent is coal tar, 90 per cent clay or earth, the remainder sawdust. The coal tar is introduced so that the bricks may be outside of a building like ordinary coal and cannot be damaged by water or weather. Dr. Morrow showed some bricks that had been in a basin of water for two days and they were as solid as when molded.

The sawdust is used so that it will burn out in a few minutes, and make the brick porous and admit the heat, but the dust is not a necessary ingredient, as some bricks were burned which did not contain sawdust. Coal slack can also be used, and Dr. Morrow burned some bricks which contained about 1 per cent of that material.

The manufacture of fuel while burning throws off no gas, or odor, but burns with a bright blue flame of intense heat. It burns up completely, there being no clinkers, everything in the composition crumbling into the dust after passing through the fire. The fuel also cleans itself, the outside peeling off and falling into dust as fast as consumed.

Dr. Morrow says that the fuel can be used without the least damage to the tubes of boilers or crown sheets.

**SCHLEY ON WAR MEDALS**

Says Nations Should Perpetuate Great Events of Their History. In reply to the letter sent to Admiral Schley by State Corps Inspector Colonel James S. Long of the National Army of Spanish War Veterans, at the request of Captain John F. Dwyer of the Gloucester naval command of Brooklyn, apprising him of his election as an honorary member, the following was received by Colonel Long the other day:

My Dear Colonel:—It is most difficult for me to find words with which to convey to you the feelings of the Gloucester Naval command, Mr. J. S. Long, War Veterans of Brooklyn, who have expressed the honor they have done me by their unanimous election of me to honorary membership in their organization.

The comradeship growing out of equal exposure to the perils of war has been in all ages held sacred, and I hold it in high honor to have been deemed worthy of the great distinction of honorary membership in an organization of my countrymen who shared equally with me the dangers of that July day in 1898 off Santiago and who deserve as much credit as myself for the blood and sweat they did for flag and country on that historic day.

Teaching the matter of your reference to a medal, I have always believed that nations ought to perpetuate the great events of their history rather than those of the lives of particular men and leave to the judgment of history to determine the value of the deeds of those who have honored themselves by deeds of honor.

No, my nation has been steadily through nearly a half century of service, my country, that I feel all the time, after my love of God. Very sincerely yours, W. A. Schley.

**New Spice Milling Process.**

Richard Wolfe of Omaha, employed as a spice miller in a local wholesale grocery, has made a discovery in milling spices which, he declares, will revolutionize the present method used in that branch of the trade. He says that he has succeeded in grinding absolutely pure cayenne pepper, 40 mesh product, at a capacity of 100 pounds an hour. Through this discovery it is said that it is possible to grind all spices with an excess of oil, an utter impossibility by any previous method, without the aid of drier or spice mixture. It practically does away with, says the New York Post, of all of the special machinery used for that purpose.

**People's Church of America.**

Official announcement is made that the People's Church of America, which has been incorporated in Illinois for the purpose of extending religious work throughout the country along the lines followed by Dr. H. W. Thomas in Chicago, not only now has at hand \$10,000, but that the donor has expressed his readiness to double his gift at any time the money may be needed, says a Chicago dispatch. It is also said that several other rich men have promised liberal gifts as soon as the work begins to spread.

**IT'S AN ILL OMEN.**

Thinks the wife, to have the wedding ring slip from the finger. "Something is going to happen."

Something is happening. That ring could hardly be pulled from the finger when it was put there a few years ago. Now it slips off by its own weight. How thin the fingers have grown! And the finger does not grow thin alone. How thin the face cannot be seen from the once plump form. Almost unconsciously the wife has been fading and wasting away. The strength given to children has never been regained. Themselves which should have been stopped have been neglected.

That is a common experience with women, unless some friend has shared with them the secret of the strengthening and healing power of Dr. Pierce's Favorite Prescription. It regulates the period, dries the drains, which undermine the strength, builds up the system, and cures female weakness. It makes the baby's advent practically painless and gives vigor and vitality to nursing mothers.

It is a common experience with women, unless some friend has shared with them the secret of the strengthening and healing power of Dr. Pierce's Favorite Prescription. It regulates the period, dries the drains, which undermine the strength, builds up the system, and cures female weakness. **PLAN YOUR SUMMER OUTING NOW.**

Improved Service to Michigan Summer Resorts.

The floating palaces of the Detroit and Cleveland Navigation Company are more beautiful than ever this season and have many added conveniences. The palaces and state-rooms are newly furnished and traveling is made delightful over this popular route. Their service has been improved and now more good connections with all railroads at each of their ports. Send 2c stamp for illustrated pamphlet. Address:

A. A. SCHANTZ G. P. A., Detroit, Mich.

**The Same Old Story.**

J. A. Kelly relates an experience similar to that which happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by Wm. M. Melville, old post office corner.

**Excursion to San Francisco via Pennsylvania Lines.**

July 5th to 12th, inclusive, the Pennsylvania Lines will sell excursion tickets to San Francisco, account Epworth League Convention. For particular information see Ticket Agents of Pennsylvania Lines.

Jas. G. Amhart of Delta, O., writes: "I had an obstinate sore on my face which everything else failed to heal. After one application of Banner Salve it began to heal and after three applications it was entirely healed leaving no scar."

H. F. Vorkamp, cor Main and North streets.

**4th OF JULY EXCURSIONS**

On the Ohio Central Lines.

Anywhere and return at one fare for the round trip on the Ohio Central Lines. Tickets on sale Wednesday and Thursday, July 2d and 4th, good returning until July 5th. Tickets also on sale to points on connecting lines within 200 miles.

**CASTORIA.**

Beers the Castoria.

General Harris C. Hobart, who has resigned from the Milwaukee public library board after a service of twenty-five years, was one of the Union prisoners who tunneled their way out of Libby prison, at Richmond, during the civil war. He is now in his eighty-ninth year. He has twice been the Democratic candidate for the Governorship of Wisconsin—in 1885 and 1885.

The Vermont custom of not hanging a convicted murderer until two years after the passing of the death sentence upon him is found upon the assumption that any possible doubt as to his guilt will be putting an innocent man to death is thus eliminated.

**NOTES FROM MANILA.**

Life of the Igorrotes, Governor Whitmarsh's Constituents.

**INDEPENDENT AND PEACEFUL.**

These Peculiar People Are Apt Pupils in Civil Government—Care of Civilian Employees—Filipino Complaints of Discrimination in Government Employment.

Philips Whitmarsh, governor of Benguet province, who is in the city on official business, talks interestingly of the Igorrotes under his jurisdiction. He writes the Manila correspondent of the New York Post under the date of May 23. These peculiar people were the first in the Philippines to ask for a civil government, and Mr. Whitmarsh was the first provincial governor appointed. Government in his province differs materially from that elsewhere in the archipelago, necessarily so because of the character of the inhabitants. As explained by Mr. Whitmarsh, the Igorrotes are in a position somewhat similar to that of the North American Indians, under an agent, but with a large measure of freedom in matters of local government. While the governor fixes the laws of the province, each municipality elects its officers and makes its laws, excepting those relating to taxation, and this last rests lightly, being only one-half of 1 per cent on property, or 50 cents (gold) yearly for those not possessing property.

"An Igorrote town is the most independent institution in the islands," Governor Whitmarsh says. "It uses every cent of its taxes for its own benefit, nothing runs into the provincial government. All that the governor can do is to approve or suggest amendments to laws, so that the Igorrotes are enjoying a good opportunity to practically learn how to govern themselves. I was astonished at the amount of aptitude and intelligence the natives displayed in framing their laws. I have allowed them to follow pretty much their own ideas and often have approved minor legislation which I knew would be unsatisfactory in order that they might learn its inefficiency and improve themselves in self government."

Individually the Igorrote is self dependent. "He can supply his needs and those of his family with little effort. Money is no inducement to him. He doesn't want to work, doesn't want to change his dress and doesn't want to become a Christian. In fact, he has no need of the aid of the outside world. The question is how can we induce him to accept civilization. The Igorrote would be happier and better off with-out civilization, but this is necessary for his preservation, or the judgment of the world will crush him out of existence."

These Igorrotes are antagonistic to the Tagalogs and also to Christians. They are honest pagans, but are moral and brave, although they will kill. Children in many respects, they can fight on occasion, and Governor Whitmarsh tells of a force of 75 of them which he organized and which, armed withbolos and six guns, secured through the territory of the predatory and head hunting Buals, north-east of the province, broke up their gangs and captured their leaders. They do not fight the Americans, however, and 34 soldiers easily keep order in the province.

The quarter-master's department is to build about 80 houses for the use of the civil employees of the government. They will be built on the exposition grounds, and the barracks there, soon to be vacated by the soldiers, will be converted into dwellings. "The object is to relieve the employees of the excessive cost of living, which is higher here than in the United States. Accommodation at the inferior hotels costs \$35 (gold) per month, but in the houses to be built by the government it is thought that satisfactory quarters and board can be furnished for \$36 a month. Each house will probably accommodate five or six persons. They will be built of Filipino woods and adapted to the climate. The barracks will be divided into apartments suited to families, bachelors and mess halls. It is intended also to establish stores similar to army commissary stores for the benefit of civilian employees, where goods can be bought at about 10 per cent above their cost to the government."

The papers here printed in English are protesting against the continuance for some years of Spanish as the official language of the courts. They assert that comparatively few of the people, especially outside of Manila, speak Spanish, and that the requirement of English as the official language would work no special hardship. They appear to overlook the fact, however, that the laws are all in Spanish. This language question is in another way the cause of much discontent among the Filipinos who aspire to positions, clerical and otherwise, under the American administration. They assert that even when they pass the civil service examination and are appointed they receive less compensation than Americans in the same grade. This is true, and the explanation offered is the unfamiliarity of the natives with the English language and American methods. Whether equal opportunity will be allowed them when they have learned American ways and English remains to be seen.

**Where Sorrowness Is Sweetness.**

South Lake, where a new oil gusher has been struck, has a very sweet sound, says the St. Louis Republic, to the men who have invested their money in that region.

**A DARING RESCUE.**

Penmanship and Honored For His Heroism Under Odd Circumstances.

A medal for "heroism and humanity" has just been awarded to William Rohrer of Delta, Pa., by The Christian Herald. The hero is very young, only a lad of 11, but he deserves his honors all the same. Last winter he rescued young Oliver Welter of Delta from death by drowning, putting his own life in jeopardy while doing this. Welter, daringly went out skating on an ice pond where the water was ten feet deep and the ice so thin that none of his comrades would venture upon it. About 12 feet from shore the ice gave way beneath him. He went under, and all his struggles to extricate himself made matters worse, the hole widening about him with every effort until, exhausted, he sank from view.

Rohrer, throwing himself flat on his stomach, crawled cautiously toward his friend. Inspired by his example, comrades rushed after him, and catching each other by the feet, made contact on with Rohrer and thus constructed a human chain to the bank. In his efforts to pull Welter from under the ice Rohrer, being partially submerged, it looked as if the weight of the other boy would drag him in but he never let go until Welter was from under the ice and arose ashore. What makes his act the more meritorious is that he and young Welter were at odds with each other. There had been serious quarrels between them. Tense Rohrer had been wounded by Welter, and on one occasion to such an extent that a surgeon's assistance was required. Rohrer when not in school works to support his mother and sisters. All of his townspeople are delighted at the honor that has befallen him, and none more so than young Welter. It was Welter's father who reported the case to the paper which made the record. The medal is of very handsome design, and the young hero is very proud of it.

**MACARONI FROM OUR WHEAT**

Counsel Hayden Suggests a Plan to Open a Market in Italy.

The department of state at Washington has received from Counsel Hayden C. Castellani of St. Louis, Mo., Italy, a report on the use of American wheat to make macaroni, saying:

"After efforts covering a period of over two years I have succeeded in demonstrating the fact that the very best quality of macaroni can be made of American wheat. This has been effected in an impossibility in those engaged in its manufacture here, and there are hundreds of establishments in this district. Up to the present time Italian wheat and wheat from the west have been used, together with Italian wheat, for the production of this article of food, the American wheat being considered too soft. Through the cooperation of one of the largest establishments in this district it has been found that this conclusion was based upon the provincial conservatism of the people. When it is remembered that macaroni consists of wheat to the extent of 99 per cent, it will be readily seen that there is an opening for American wheat of no inconsiderable importance."

It has been suggested to me that if the United States government would admit free duty on at least a low tariff on the present tariff macaroni made from American wheat a market for our wheat would be opened in competition with that of Russia and the east. The present tariff on 1,000 pounds of macaroni is \$15, or 15 cents per pound. Under the plan proposed 60 per cent of the said 1,000 pounds would be free, leaving 40 per cent to be taxed at the present rate of 15 cents per pound, making of \$15, 10 cents per pound of \$8 instead of \$15. It should be remembered in this connection that Italian manufacturers would have to pay freight from the United States to Italy and also pay freight on the same wheat manufactured into macaroni and transported to the United States."

**TRAMPS FORCED TO WORK.**

Nebraska Farmers Impress Them to Aid in Wheat Harvest.

New wheat is moving in Nebraska in great quantities. Box cars are in great demand. The cereal is being thrashed as rapidly as weather conditions will permit, and the grain is unusually firm and large. The greatest difficulty is being experienced in securing men to handle the crop, says an Omaha dispatch to the Chicago Inter Ocean. The movement of tramps across Nebraska and Kansas at present has ceased, because many have been hauled from cars along the different lines by farmers and trappers and impressed into service.

This is no joke, as a large crowd of tramps at Orleans, Neb., discovered the other day. Thirty were rounded up by farmers armed with pitchforks at the water tank near that town just after Sabbath meeting and were marched into the country. They were paraded among the farmers and told that they would get \$2 a day and food if they worked their best, and if they did not they would be taken to town and confined in jail or on the rock pile as vagrants. As a rule this persuasion was sufficient, and the tramps went to work with vigor.

**Box Car Costs \$625,000 a Week.**

Mr. Brodbeck, secretary of state of war, according to a London cable dispatch to the New York Sun, announced in the house of commons the other day that the cost of continuing the war in South Africa, including the maintenance of prisoners, was \$1,250,000 weekly.

**A JEWISH EXHIBITION.**

Planned to Hold One in New York Next Winter.

**TO BE HISTORICAL IN CHARACTER**

Scope of the Project, in Which All Organized Hebrew Bodies Will Co-operate—Dr. Cyrus Adler Chosen as President of the Executive Committee.

It has been determined by a number of prominent persons interested in the subject to have in New York city during the winter of 1901 and 1902 an American Jewish historical exhibition similar in some departments to the Anglo-Jewish Historical exhibition held in London in 1887, says the New York Times. When the American Jewish Historical society held its last meeting in Philadelphia, a committee was appointed with full powers to plan for this exhibition.

The committee, in whose list of members are many prominent persons, reported that such an exhibition would do credit to the Jews of America and convince the American people that their Jewish brethren have played an important part in the development and history of the United States. Upon this report it was agreed that such an exhibition should be held. An executive committee was immediately appointed as follows:

New York—Cyrus S. Straus, Max J. Koller, Joseph Jacobs, N. Taylor Phil R. Koller, Morris Lasker, Professor Richard Gottlieb, Leon Hammer, George Hellman.

Philadelphia—Mayer Sulzberger, Dr. Robert Friedenwald.

Baltimore—The Rev. Dr. William Roca.

Chicago—The Rev. Dr. B. Felsenthal.

San Francisco—The Rev. Dr. Henry Cohen.

Dr. Cyrus Adler of the Smithsonian Institution of Washington has been elected president of the exhibition.

Among the things to be shown are historical records of the Jews in America including such things as Columbus' earliest records of his discovery written to Jews in Spain, Isaacson's records, Washington's letters to Jews, portraits and pictures of well known American Jews and the histories of Jewish institutions in America. There will also be included a collection of all books written by the Jews of America pertaining to American Judaism. An international exhibit of things pertaining to ecclesiastical art and to Jewish antiquities is to be a feature.

Not only will autonomy be represented, but whatever it is thought will be interesting will be utilized. While objects having to do with American history will be the largest part of the exhibition, it has been determined to give Jews from Russia and Germany proper space. It has been thought best not to give the exhibition as an American Jewish historical society function but to invite all other important Jewish societies to participate. Among these asked to aid are:

The Jewish Publication Society, the Union of American Hebrew Congregations, the National Conference of American Rabbis, the Orthodox Jewish Congregational Union, the Hebrew Union College, the Jewish Theological Seminary, the various Jewish fraternal societies, the Chautauque Society, the Council of Jewish Women, the National Conference of Jewish Charities and the Federation of American Zionists.

A general committee for the direction of the exhibition will be selected from committees appointed by these organizations. The main executive committee and minor committees of detail have already been chosen. As those in charge desire to be in communication with those who will exhibit as soon as possible an office will be secured shortly.

**CHANCE FOR KANSAS APPLE**

English Fruit Dealer Says It Has No Superior.

William N. White, an extensive fruit dealer from London, arrived in Topeka recently to make an investigation of Kansas apple orchards and ascertain the best grade of apples for packing and storage purposes, says the Kansas City Times. Mr. White believes that Kansas has a great future before it as an apple producing state. He says soil that will raise good wheat will raise better apples, and Kansas farmers would do well to plant orchards on some of their wheat land.

Mr. White says that the Armour Packing company of Kansas City will be a big factor in the apple business this year. He says the company experienced last year and found that it could make money by purchasing and storing apples and that it will go into the business more extensively this year. "The bulk of the apples used in England," said Mr. White, "come from this country. It is only a question of time until America controls the apple market of the world. California could easily take the wine trade of the continent away from France if Californians would learn to blend their wines. The California grapes make better wine than the French grapes."

**No Moonstruck Maidens Now.**

Science has proved that moonlight is more fatal to the complexion than the sun in its splendor, says the New York Commercial Advertiser, and they are now selling in Paris little moonshades made of a double thickness of mouseline de soie, with a light fringe, the handles of which fold back like those of the marquis of our grandmothers' time.

**Eczema for Forty Years.**

The Unqualified Statement of a Well Known Attorney, St. Ignace, Mich.

Some of the cures made by Dr. A. W. Chase's Ointment of stubborn and long continued eczema and skin diseases are

beginning to realize that this Ointment is a wonder worker with all kinds of skin trouble. Attorney James J. Brown, St. Ignace, Mich., writes as follows:

N. Y.—Gents:—I cannot refrain from expressing my acknowledgments for the relief I have felt from Dr. Chase's Ointment. For 40 years I was afflicted with a skin disease which was located in one spot on my leg. I have spent at a rough estimate five hundred dollars trying to effect a cure, and not until I applied this ointment did I get relief. You are strangers to me and this letter is prompted directly by the fact that I feel as though I ought to say it. That Chase's Ointment has effected a complete cure of my affliction. Three boxes did the work on my leg. I was also suffering from itching piles and applied the ointment which gave the best of satisfaction. As a side benefit, at night and rapidly curing the itching piles. I have received such relief and comfort from the ointment that I cannot withhold expressing my gratitude. I was so long afflicted with the tortures of eczema, I feel now that I am cured, a word of recommendation is due from me. Yours truly, JAMES J. BROWN.

Dr. Chase's Ointment is sold at 50 cents a box at all dealers or Dr. A. W. Chase, Medicine Co., Buffalo, N. Y.

## OIL

### Men are Sprouting Horns.

### Trifle Bullish

In Their Attitude of the  
Last Week.

A Toledo Correspondent Predicts an Advance in the Market.

Review of Operations in the Various Fields During the Last Few Days—Ohio Fields are Quiet.

The feeling generally among oil producers is in favor of an advance in the near future. In other words they are growing horns of late. They are nearly all bulls, whereas a month or six weeks ago they would not have been surprised at a decline of 5 cents a barrel.

The question arises what has brought about this change of front? Oil men are not politicians who change front without apparent cause some times. But they are close observers of the acts of the controlling elements and become influenced by it to a very large extent.

"Whatever you see the Standard doing it is a pretty good thing for you to follow suit," is not infrequently heard, says the Toledo Times. Of course this might do for an occasion or a season, but to follow it in every direction might lead to disasters unexpected. No company is infallible. It cannot tell any more about the outcome of a new enterprise than the fishing babe. At the same time having the thumb on the pulse of the trade at all times, the Standard people are in a position to know in advance what the future is likely to reveal. They know by the demand for refined whether the market is shaping for depreciation or the reverse.

They are not in the dark touching developments in this country everywhere and in foreign lands as well. If it is figured out that the supply has not kept pace with the output the chances for a drop in the market are not good. If, furthermore, field developments are not of a serious type no one knows it quicker or better than the managers of the big concern.

If the latter seem inclined to take production in out of the wet at a good round price it is considered a safe proposition for others to do likewise. Now these are conditions that seem to prevail at this time.

There are no important developments. There was a wild rumor the other day of the striking of a big well in Indian territory. A new well was alleged to have flowed oil 400 feet high. The fact seems to be that a well being drilled by J. A. Heydrick and others, of Butler, Pa., made a showing of a heavy grade of oil of 600 feet, but that was all. Mr. Heydrick is well known to the writer as well as to many other old-time operators in this country. He is a civil engineer and followed surveying and belt map making in the east for a couple of decades.

### Red Fork "Strike"

A telegram from a reliable source was received as follows:

"He stated that the well is located on Red Fork and the oil was developed at a depth of 540 feet in a sand six feet thick and the hole had filled up and stopped over but had made no big flow. The oil is 33 gravity and the well is owned by Heydrick, Wick and others, of Butler, Pa. These parties have 600,000 acres in the lease. The well is very similar in actions to those near Bartlettville, some six or eight miles to the east, and owned by Boston parties. The oil taken from these wells is about 33 gravity and is loaded in tank cars and shipped to Neodesha, Kas., where it is refined. The location, however is so remote from the markets that it leaves only a small profit to the producer and exerts

through the Big Injun and will make a 10 barrel well from the salt sand.

Beaumont is Quiet.

In the Beaumont, Texas, field there was nothing startling developed during the week. The Hogg-Swayne well on Spindle Top was drilled past the gusher point without attaining the expected gusher. A fair showing of oil was discovered, however. But it was not satisfactory to the owners, who ordered the well drilled deeper. In doing this the casing, which the contractor attempted to pull, was parted 300 feet down, causing a fishing job and much delay in the well's completion.

The supreme court of Texas holds by a decision rendered last week that the state does not reserve mineral rights on school lands. This decision effects favorably about half the land owners of Jefferson county where oil is produced.

The fuel oil business of Texas is bringing the railroads down there to their senses. Already rates have been reduced on nearly all the roads of the south on coal. Nevertheless preparations are making on a large scale at every point where coal has been largely used, for the introduction of Beaumont oil.

Hancock Field.

Isaac Hart on Saturday sold an 80 acre lease and two wells to Allen & Sternberg. The property is located in Portage township, and brought the sum of \$3,200.

The Bradford Oil company has its Nos. 5 and 6 on the Clarence Cole farm in Portage township, section 24, in the sand. The Ohio Oil company also has a well on the old Elias Price directly to the west of the Cole, in the Trenton. No. 16, on the Sherrard farm in Liberty township was shot, Saturday, by McGee & Leebner. The well showed up nicely.

Notes in General.

Talking about consistency in men there is often much more of it in oil. Mr. Stevens, the Findlay broker, who has just returned from the California fields, says that the oil there looks precisely like this melted tar that is poured on our streets, unless it is possibly a little thicker and blacker. This is one reason that the California oil is used exclusively for fuel.

G. A. Smith, of Bowling Green, who is interested in a well down in the Texas field, says that the reports from it are not very encouraging, as the well is down 1030 feet without the slightest signs of oil.

Rathbone & Frost's well on the Ensinger farm at Portage, Wood county, is pumping salt water, with a very little oil.

\$1,000 will be paid to any one who produces as good an all-round life saver as Rocky Mountain Tea made by the Madison Medicine Co. 35c. Ask your druggist.

### NORTHERN MICHIGAN EXCURSION

Via Ohio Central Lines in Connection With Ann Arbor and Pere Marquette Railroads.

Here is your cheap excursion to Northern Michigan resorts, Beulah (Crystal Lake), Frankfort, Traverse City, Honor (Platt Lake), Ludington and Manistee. Thursday, July 25th, via the Ohio Central Lines, \$6.50 from Athens, \$9.00 from Granville, Columbus, St. Marys, Bellefontaine and Kenton, and proportionately low rates from all other stations for the round trip; tickets good returning until Saturday, August 10th, leaving destination.

For full particulars, time of trains, etc., call on agents of Ohio Central Lines, or address

## HEAT

### Prostrates Another Victim.

### A. J. Gladwell

Now Under the Care of a Physician.

South Side Sportsmen Will Shoot at Kenton on the Fourth.

An all Day Sewing to be Held in the South Side Christian Church Tomorrow—Other South Side News.

While at work yesterday afternoon A. J. Gladwell, of south Main street, was overcome by the heat. A physician's attention was required to resuscitate him. He was removed to his boarding place, where he suffered considerable for several hours. This morning Gladwell was able to leave his bed but will be unable to resume work for some time.

The secretary of the south Lima Winchester Gun club, R. G. Platt, of south Main street, received a letter informing him that the shoot to occur at Spencerville, July 4th, had been abandoned. An important shooting will take place on the above date at Kenton. It is probable a number from here will participate.

Tomorrow an all day sewing for the benefit of the church will be held in the south Lima Christian church. In the evening there will be a meeting of the Christian Endeavor, to complete arrangements for the excursion under their auspices to Dayton, July 24.

Today the Sunday school classes of Mrs. B. J. Gantz, Lulu Gantz and Bessie Stuckey, enjoyed a picnic at Hove's lake. The large crowd of young people are being chaperoned by the aforementioned persons to whose kindly generosity the children are indebted for the day's recreation.

At the recent Methodist conference held in Grace church the Deaconess, Miss Wilcox, of the Lima district urged those who were at liberty to do so to adopt the profession of a deaconess. Her plea has not been in vain. In a short time Misses Lida Clark and Bessie Stuckey, of south Lima, will go to Chicago, where they will enter a training school for deaconesses. Upon the completion of their course they will very probably receive local appointments as there is great need of consecrated women in this city. The matter of establishing a home in this locality which action was resolved at the latter convention held here is being agitated with the indications of a successful culmination of the commendable undertaking.

James Riddle, who suffered a prostration from heat yesterday in south Lima is today in a precarious condition. Last night he experienced excruciating pain. The seriousness of his condition is augmented by an affection of the heart. During a greater portion of last night he was violently delirious, requiring several strong men to hold him in bed. Mrs. Riddle, arrived from Wapakoneta, being now with her husband. It is feared his illness may prove fatal.

To officiate at the obsequies of a friend Rev. Lopley, has gone to Alger. A brief vacation will be spent by Miss Violet Valentine, at her home in Leipsic.

This morning Mrs. Frederick Gillman, of south Metcalf street left for Muncie, Ind., where she will be the guest of relatives several weeks.

The next few days will be spent by Mrs. Mary Finn, of south Lima visiting at Whiting, Ind.

Spending several weeks in Michigan Frank Whitner, has returned to his south side home.

At the south side gun club shoot yesterday afternoon Bert Hall, was awarded the badge for attaining the highest score.

Making an extensive tour through the oil fields of California and Texas, Thomas Hovey, is at home again.

A Marion young lady, Miss Grace Rise, is being entertained by Mrs. J. C. Cox, of south Lima.

In a few days S. D. Cremona, will leave for several weeks stay in Oklahoma.

Shortly, Edward Paiser, will leave for Montana, where he will remain some time.

His parents on south Main street are being paid a visit by their son, V. Vansverlagon, of Muncie, Ind.

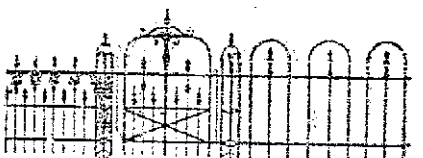

## Dr. Fenner's Blood and Liver Remedy and Nerve Tonic.

CURES Biliousness, Constipation, Headaches, Dizziness, Old Sores, Erysipelas, Liver Complaint, Skin Eruptions, Scrofula, "Blues," etc.

For sale by Druggists everywhere. 50c a B. ST. VITUS' DANCE. A sure cure. Circular with testimonials to M. St. Fenner, Fredonia, N. Y.

## Cure the World's Headaches. BROMO-PEPSIN

Sparkling, Effervescent, Cooling. No Opium. Prompt in its Action. All Druggists, 10c, 25c and 50c.

Iron and wire fencing for all purposes. Tree guards and hitch posts. Also iron chairs, settees, vases, etc., for the lawn or cemetery lot.

Please write for particulars and prices.

W. ROCKEY,

Postoffice box 103, Lima, O.

At her Madison avenue home Miss Jessie Singlin is entertaining Miss Ella Crane, of St. Marys.

To visit at Bradford, Pa., also Buffalo, N. Y., Miss Isabella Morrison, with her sister Miss May, left for the east yesterday.

Her sister Mrs. F. P. Miller, at Columbus, is receiving a visit from Mrs. Wm. Start, of south Elizabeth street. Concluding a pleasant visit with George Basslor, Carl Block, has gone to his home at Galion.

This morning Miss F. G. Miller, went to Muncie, Ind., where she will be the guest of relatives for several weeks.

A portion of her vacation will be spent by Miss Clara Reed, principal of the south Pine street school in Rochester, N. Y., from where she will go for a visit to the Pan-American exposition at Buffalo.

Having traveled extensively through the south west, also in Mexico, A. D. Ridenour returned last night to his south side home.

For her guest Mrs. A. B. English, of south Lima, has Mrs. Gertrude Brown, of Minneapolis, Minn.

Four Wayne friends are entertaining Pearl Jackson, of south Main street.

Visiting in this locality the past few days Misses Helen and Marie Basil, have returned to their home at New Bremen.

Last night Miss Daisy Van Dyke, of Warsaw, Ind., arrived in the city to be the guest for a few days of Mrs. Ruthell Laughlin, at her home on St. Johns avenue.

### PUT-IN BAY EXCURSIONS.

For the Music Teachers' National Association meeting, agents of the Ohio Central lines will sell excursion tickets to Put-in-Bay, Lake Erie, O., and return at one fare for the round trip from all stations. Tickets on sale June 30, July 1 and 2, good returning until July 8, 1901. d&w-t

Summer complaint is unusually prevalent among children this season.

A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of every family. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time.

Trans. Iowa Journal. For sale by Wm. M. Melville, old post office corner.

McKINLEY AND ADDICKS.

In an article contributed to Ainslee's Magazine, Edward P. Clarke charges in very plain language, that President McKinley labored with the Republican members of the Delaware legislature to procure the election of "Gas" Addicks to the United States senate. Mr. Clarke says the president used his influence to bring this about and brought much pressure to bear on the Republican legislators who refused to vote for Addicks in order to change their attitude. "The president of the United States," Mr. Clarke says, "earnestly brought their co-operation in whatever arrangement might be necessary to secure the election of two Republicans, and he urged them to place the good of the party above any question of personal prejudice." This was in effect an appeal for the election of Addicks and was so understood by the legislators to whom it was addressed, and as Mr. Clarke remarks, "was as severe a strain as was ever put upon plain men, but it was met with the moral courage of heroes. The price is too high—that was the ugly truth which was frankly told the president to his face by these conscientious Republicans."

Commenting on the statement made by Mr. Clarke the Boston Herald says it is compelled to believe that it is reliable, because he is a very careful investigator of facts and before writing his article put himself in communication with parties in Delaware and also went to the state to see them. At the time the deadlock was on in the Delaware legislature it was charged that the president was trying to bring about the election of Addicks, who had been recognized as the leader of the Republican party of that state and his delegation seated by the Republican national convention, but the charge was indignantly denied by the friends of the administration, and some of the party organs went to the length of saying that Addicks' character was such the president could not aid in his election without bringing disgrace upon himself and scandal upon the administration. It seems, however, that Mr. McKinley did everything he could to secure Addicks' election to the United States senate. Mr. McKinley prates much about Providence, honor, duty and destiny, but the people are beginning to realize that he is a very sleek humbug.—New Orleans States.

## ALTAR BOYS

And St. Rose Graduates Picnic at McBeth's.

The St. John Berchman Society, which is composed of the altar boys of St. Rose church, together with the class of the pupils who graduated from St. Rose high school last week, and a few invited friends, were tendered a picnic at McBeth's park this afternoon by Rev. A. E. Manning, Revs. J. B. Mooney and E. Rupertal. A pleasant afternoon was spent in boating and other amusements, and an elegant luncheon completed the festivities of the day.

Diphtheria relieved in twenty minutes. Almost miraculous. Dr. Thomas' Electric Oil. At any drug store.

Fine \$2 and \$2.50 Street Hats for 50c and 75c at Mrs. P. Lights, 134 north Main.

Spend the 4th at McBeth's Park and keep cool.

## POOL

Of Gigantic Size is Being Formed

By Boss Hanna

With J. P. Morgan the Chief Actor.

Plan to Gather All Bituminous Coal Mines Into One Organization.

Hanna's Massillon Syndicate is to Become a Constituent Part of the Combine—Monopoly to be Complete.

Cleveland, July 2.—It is claimed that before Sept. 1 all the big companies producing bituminous coal will have been gathered into one organization, similar to the United States Steel corporation. The capitalization will probably be second only to that of the big steel trust. As an auxiliary to this movement being carried on by the promoters of one constituent company of the greater organization, a complete pool of all the retail soft coal interests in Cleveland will be effected within the next 10 days, for which preliminary steps have been taken.

From what can be learned work on the big coal trust has been under way a greater length of time than any of the other industrial combinations. J. P. Morgan, the advocate of the combination, first started in with his coal combinations three years ago, making the first movements along the line of controlling the products of Ohio and West Virginia. At that time he obtained control of the mining property in the Hocking and Shawnee valleys. In order to give an outlet for this coal he purchased certain railroad properties, and this started the combination mania along the line of railroad ownership which has gone to extraordinary lengths. The proceedings in the present combination are similar to those displayed in the formation of the steel trust. A year ago all of the coal properties in the Pittsburgh district were collected into one organization known as the Pittsburgh Coal company. About the same time the same interests which ship coal down the river formed what has since been known as the Monongahela Coal company, each being a combination of smaller companies, making an organization of considerable importance. The desire to control other coal territory in the same fashion, that the larger companies might be easier handled by Mr. Morgan, has led to the selection in certain sections of confidential agents. An organization was completed in Chicago 10 days ago known as the Illinois Coal company. About the same time it became generally known that M. A. Hanna and others had about completed the absorption of most of the coal properties in the Massillon district. This is expected to be completed in the next 10 days. The Pittsburgh coal production is virtually owned by one company, the Fairmount Coal company, which in turn is the property of the Baltimore and Ohio railroad.

Now the Illinois Coal company, the Pittsburgh Coal company, the Monongahela Coal company, the Fairmount Coal company, the Hocking Coal company and the Massillon Coal company are all to be collected into one big organization, the name of which has not been selected. All of these will be operated from one general office, with auxiliary offices in the vicinity of the property and with one general lake shipping office in Cleveland. It is expected the Pittsburgh Coal company will be the central figure around which the others are grouped.

Along with this organization will go also the coal docks and fast loading plants owned by the various coal companies which shall hereafter make a part of the big organization. This will include those which are located along Lake Erie and also on the upper lake ports.

The aim of all this is to effect a complete monopoly of the bituminous coal production in the territory east of the Mississippi and north of the Ohio. To the accomplishment of this end Mr. Morgan is said to have given himself without reserve and will take it up as soon as he returns from Europe.

## TOBACCO HONESTY.

"A Chewing Tobacco With a Conscience Behind It" Reaps the Reward of the Best Policy.

That fine sentiment, "Honesty is the best policy," which has stimulated so much worthy effort and made success easier in many places, has always been the guiding principle in the manufacture of Wetmore's Best chewing tobacco.

Some one has aptly described Wetmore's Best as "a chewing tobacco with a conscience behind it," so close have the manufacturers bent to the spirit of the adage quoted. But the re-

ward has come; not only in a comforting self-approval, but in a large business: a business that is extending from day to day until Wetmore's Best is known wherever a good chew is prized or sought.

This best quality is not attained without effort, in addition to good intent. The tobacco used in Wetmore's Best is selected by expert buyers with a view to uniformity of quality, manufactured by the most advanced methods in a model factory—all of which requires a very large and very intelligent business organization.

Every buying and factory effort is given to quality and uniformity. There is not a penny saved for anything but legitimate business effort in making and marketing Wetmore's Best.

No premiums. Because every premium that is given must be paid for by reducing the quality of the tobacco.

Wetmore's Best will remain best by giving money's worth—more than money's worth, judging by the common standard—and every dealer is instructed to return purchase money if a customer says he is dissatisfied with Wetmore's Best.

The sign of Wetmore's Best in a tobacco store is evidence of the dealer's fairness and good intention. A piece of Wetmore's Best in a man's pocket is promise of satisfaction with both himself and his chew.

## Bryan Banquet.

Newport News, Va., July 2.—William J. Bryan addressed a large audience at the academy of music. Following the address a banquet was given at the Hotel Warwick in Mr. Bryan's honor by the city Democratic executive committee at which a number of prominent men were present. Mr. Bryan responded to the toast "The United States." Governor Tyler's toast was "Virginia." Senator Daniel was expected to be present but was detained at Richmond. From here Mr. Bryan will visit Roanoke and Bedford City.

## Lacked a Leader.

Lancaster, O., July 2.—John Holmes, the negro who took the 15-year-old daughter of E. T. Horn from home, was arrested and brought to the city. Cool heads and strategy prevented serious trouble and Holmes was locked in jail in default of \$1,000 bond, charged with assault. His preliminary trial was fixed for July 9. The jail is guarded. A leader only was necessary to have attempted to lynch Holmes.

## Molten Metal Exploded.

Chicago, July 2.—Three tons of molten iron, which exploded with terrific force in the plant of the Illinois steel work at South Chicago, instantly killed John Kaba and injured several other employees. The explosion, which was caused by a ladle of molten iron overturning in a blast furnace, tore nearly 100 feet of the walls away and broke the windows in other buildings adjoining.

## Jockey's Mishap.

Chicago, July 2.—Jockey Coburn had his leg broken while at the post for a race at Washington park. He had the mount on Emma C. L. A horse whirled suddenly and crushed the boy's foot. He fainted and was carried to the paddock. He will be kept out of the saddle for some time.

## Want a Shorter Day.

Newcastle, Pa., July 2.—The machinists, blacksmiths and helpers of both the big local plants of the American Tin Plate company went out on strike for a 9-hour day. About 100 men are concerned so far.

## LIMA

Machinists Have an Organization.

The New Order

Starts Out With a Membership of 93.

President O'Connell Will be Here Next Monday to Address the Union.

Holiday Rates on all Local Lines go Into Effect Tomorrow and One Fare for the Round Trip Will be Charged.

What has been the object of Lima machinists for some time was accomplished last night, when a perfectly satisfactory organization and union of forces was accomplished. Several meetings had been called in the new Black block and speakers and organizers from abroad were here on different occasions to encourage the idea of a permanent organization.

The outcome of it all is that Allen Lodge No. 116, of the International Association of Machinists is now added to the list of other local unions and a splendid complement of officers chosen to guide the order through its first year's efforts.

The charter and all necessary supplies have been received and the lodge starts out with 98 members, which means that more than two-thirds of the men in Lima, who are strictly machinists, are now enrolled. Another meeting is to be held next Monday evening and J. J. O'Connell, president of the International Association will be here to address the new lodge.

The question naturally suggests itself now as to what will be the attitude of Lima machinists in regard to the nine hour day demand, but none of the men will discuss the situation on that ground. It is recalled, however, that the first talk of reorganization, and the first steps taken in that direction followed almost immediately after the machinists strikes began to occur all over the country, resulting in almost immediate compliance on the part of the employers to the demand for shorter hours, and in not a few instances better pay. The machinists in Lima could not do much without an organization to control the movement, and no concerted action to bring about that situation here was taken.

An improved condition was brought about by petition presented by the shop men, but whether the situation as it now is, is satisfactory, will be for the future to unfold. The men, however, are not given to talk outside of the lodge room, and if there is a definite purpose in view it will be made known at the proper time.

## Tribute to Michael Nolan.

The Fort Wayne Sentinel has the following reference to Michael Nolan, the deceased engineer:

"Michael Nolan died at Lima, Ohio, last evening, after a long and painful sickness with cancer. He was several years old and leaving a wife, two sons and two daughters. The children are James Nolan, of the Pittsburgh freight house, this city; John A. Nolan, who lives with the family in Lima; Mrs. Katie Fox and Miss Mamie Nolan, also of Lima. The remains will be brought here on Pennsylvania train No. 21, at 10:10 Tuesday morning, and be conveyed immediately to the Catholic cemetery for interment. Michael Nolan was one of the best known and most popular engineers on the Pittsburgh road for a number of years, retiring from the throttle only when disease and the infirmities of age incapacitated him for that duty. Six or eight months ago he removed, with his wife and single son and daughter, to Lima, where the eldest daughter already resided. When he became too ill to work he was placed upon the extra pension list of the company, and January 1, when the pension system was placed in operation, he was placed on the list with a number of other old employees. John Nolan, the veteran Pittsburgh shopman, is a brother to the deceased. Charles D. and John H. Nolan, of the Pittsburgh machine shops, nephews of the deceased, went to Lima to accompany the remains and the bereaved family here Tuesday."

Knocked From a Trestle.

A. W. Miller, a farmer living near

South Charleston, was knocked from a trestle by an Ohio Southern freight train yesterday morning and badly, but perhaps not fatally injured. The accident happened about 2:30 o'clock. The engineer saw him sitting on the track and the man was probably dozing for he made no attempt to get up and it was impossible to stop the train. He was picked up and taken to Springfield, where he is now in the hospital.

## Notes.

Operator W. F. Miller, formerly of this city, now at Leipsic Junction with the C. H. & D., is in the city. He leaves Wednesday to spend the summer among the lakes of Minn.

The Pittsburgh yard men insist that James Young, one of their number, is to be married at Van Wert, Ohio, one week from tomorrow. Jim denies the report, but he boys say it is true.

Conductor W. B. Kitzelman, who was entertaining his brother-in-law from Lima, and Erakeman C. D. Ream, who was sick for ten days, reported for duty on the Nickel Plate this morning.—Fort Wayne Sentinel.

Firman Frank DeTurk, who was off a week on account of a sprained ankle, resumed work on the Pittsburgh road this morning. Fireman G. S. Bates, who had a leg injured three weeks ago, also reported for work on the same road this morning.

The mangled remains of Walter Stanley, a caller of train crews for the Nickel Plate, were found on the L. E. & W. tracks at Fort Wayne.

Some idea of the passenger traffic in and out of Lima can be gathered by spending a few hours at the C. H. & D. and L. E. & W. depot. Passenger agent Burkhardt, who is the joint representation of the two lines mentioned, has twenty passenger trains daily, and the tide of humanity at this season of the year is noticeably heavy.

Traffic on the C. H. & D. yesterday was delayed on account of a wreck at Bates. North bound No. 94 got a pair of trucks off the track and No. 1 was delayed from 9:12 until 12:10. Conductor Jim Kelly and engineer Frank Moore were in charge. The wreck train was sent up to straighten things out.

Inquiry as to rates and the time and departure of trains, keep the passenger agents on the jump as the Fourth approaches, and the indications are that all of the roads will enjoy a heavy business tomorrow and next day. The only home attraction out of the ordinary will be at McBeth's lake and those who want something more exhilarating will seek it where special attractions are offered.

A \$1.50 excursion will be run to Cincinnati next Sunday, the chief attraction being the base ball game between the Reds and New York. Tickets will be good going either at 2:10 or 6:50 in the morning and returning at 5:20 or 9:50 in the evening.

Joseph Briggs, traveling passenger agent of the Illinois Central, F. P. Wise, who holds the same official position with the Burlington and Charlie Murray representing the Chicago & Alton, are all visitors in Lima today.

The Fourth of July holiday rates go into effect tomorrow on all local lines and one fare to all points within a radius of 200 miles is the usual agreement. Tickets will be sold, good on all trains and will include three days, Wednesday, Thursday and Friday.

The United Brethren church has arranged for an excursion to Put-in-Bay on Wednesday, July 17. The rate from Lima will be \$1.50.

Engineer Harry Bell, of the L. E. & W., has resumed his duties, after two weeks vacation.

Engineer James Osman, of the C. H. & D., reported for duty today, after a brief lay off.

## DOCTORS BAFFLED.

A Great Sensation Among the Afflicted.

Persons who harp on the idea that there is nothing new under the sun, should go to the Hotel Norval and see Aletha, the Wonder perform the work for which she is famous.

Invalids become active, cripples are dropping crutches and men and women afflicted with all sorts of diseases, shout for joy.

This work should not be confounded with faith cure, mental rubbish, magnetism, mesmerism, hypnotism or any other "ism." Aletha the Wonder was born with the gift to heal, and persons afflicted with any form of acute or chronic diseases should avail themselves of the opportunity afforded to become free from disease.

It is no exaggeration to say that as Aletha becomes better known, she will not be able to attend to the many cases presented for her to cure. The woman is besieged at all hours, by men and women, who have heard of her strange power. Last week she was called to Fort Wayne to save the life of a supposed dying man. As she

## WATSON'S OPENING

entered his presence she talked quietly to him and after a little while, asked him how he felt.

"Why," he exclaimed, in tones of heartfelt joy, "I have no pain at all now." And happiness seemed to surround him. This is a strange work.

People who have doctored in vain, people who have tried faith cures and all the other, so called "cures", flock to Aletha with the confidence that she can and will relieve their suffering. She never disappoints, she tells her patients at one glance and without asking questions, what their trouble is and exactly where it is located.

Wednesday, Thursday and Friday of this week, Aletha can be consulted at rooms 73 and 74, Hotel Norval, Lima, Ohio.

A little life may be sacrificed to an hour's delay. Cholera, infantum, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

"Airion" the champion high wire bicyclist gives two exhibitions daily at McBeth's Park this week, free to all; don't miss it.

A great many men owe their success in life to their wives.

Yes, answered Mr. Meckton complacently. If there were more women like Henrietta in the world, there would be more kind and obedient husbands.—Washington Star.

## WANTED.

MANAGER—Energetic man manage branch; old established house; no soliciting; office duties wholly; salary, \$125 month; extra commissions; yearly engagement; chance rapid advancement man ability; must furnish reference and \$500 cash. Manager, drawer 74, New Haven, Conn. June 15-22

NICELY—Furnished rooms at 414 north Elizabeth street, about one square from court house. Hot or cold rain water baths, free. 1-3t

WANTED—Machinists; steady employment and good wages to competent men to fill places vacated by striking machinists in Chicago. Allis Chalmers Co., 12th street and Washington avenue, Chicago, Illinois. 18-6t

WANTED—A competent girl for general housework. Inquire at once of Mrs. O. B. Selfridge, 650 west Market street. 18-6t

HOUSEHOLD—Goods for sale, 210 1/2 south Main street. 22-31t

WANTED—Two good girls to do ironing at the Niagara laundry, east High street. 2213t

LOST—Long red bill pocket book; was lost between this city and Lakeview, Ohio. The pocket book contained a large sum of money. A liberal reward will be paid for the return of the same to the Enterprise laundry. 11t

## CLAIRVOYANT.

Madam Godly reads your life as if from a book. She tells just what you wish to know. Business strictly confidential. At house from 9 a. m. to 8 p. m. daily and Sunday. Office 224 north West street.

## TWO VALUES.

HERE are two values to every purchase—what it costs and what it pays you. Cork costs 8 cents a pound, but if you are drowning half a mile from shore, its value would be "not what you pay for cork, but what cork saves you." When a woman buys soaps she often confuses the two values. She sees only what she pays. She overlooks what she receives. Now a single cake of Ivory Soap pays back from ten to twenty times its cost in the saving it effects. Test it yourself! Vegetable Oil Soap. Ivory white. It floats!

## EARL

Russell's Trial to Begin Soon.

British Lords

Will Investigate the Bigamy Charge.

Trial Begins July 18 and the Earl of Pembroke Will Preside.

Hospital Ship Maine Presented to the British Navy by the Americans and is Gratefully Accepted.

The Earl of Pembroke, first lord of the admiralty, announced in the house of lords that the trial of Earl Russell will be held in the house of commons.

The Earl of Selborne, first lord of the admiralty, announced in the house of lords that the hospital ship Maine, which was fitted out by a committee of American women for the use of the British navy, and which was sent to Taku, where she took on board wounded and sick men of various nationalities, had been presented as a free gift to the British navy. The Earl of Selborne read a letter from President Bernard H. H. of the Atlantic Transport Company, offering the Maine, and also read the government's reply accepting the ship. Lord Selborne added that the women of the Maine committee had donated the ship's hospital fittings. This gift of citizens and women of the United States was most grateful, Lord Spencer concurred. He said they all appreciated the gift very highly, not only on account of the ship herself, but as a sign of the cordial relations and good feeling existing between the people of the United States and Great Britain.

Mr. B. H. H. in his letter to the Earl of Selborne said: "In offering the Maine I would like, as a citizen of the United States, to express appreciation of the long protection afforded my interests under the British flag. I am also influenced by the noble work achieved by Americans in equipping and maintaining the Maine whilst in service in South Africa and China. I trust she will long be an emblem of the cordial relations existing between the citizens of the United States and those of the mother country."

## PERSONAL.

F. C. Coreomire and family have returned from their visit to Florida, Ohio.

Mrs. F. G. Arter, of Chicago, who has been visiting friends in Lima the past two weeks, has gone to Van

Wert, O., accompanied by Mr. D. L. Arter, of north Elizabeth street.

N. F. Smith, of the Buckeye Pipe Line Co., accompanied by his family will leave tonight for Buffalo to attend the exposition. While there they will be the guests of his brother, Leo G. Smith, proprietor of the Kincaid Hotel, 7 East Union street.

Miss Grace Kelly and Josephine Ehrman have returned to Lima after visiting Mrs. E. C. Spitz.

Carl Altschule, of Lima, was in the city Saturday night. He was enroute to Buffalo to attend the exposition.—Findlay Courier.

Miss Rhea Mowery, of west High street, has gone to spend the summer with her aunt, Mrs. W. A. Freese, of Kansas, O.

Miss Margaret Yeakum, of west North street, is visiting her grandmother, Mrs. Ewing, of Bluffton, O.

Miss Olo Mowery is visiting relatives and friends at Cridersville.

Miss E. Grace Hutton left today for Ann Arbor, Mich., where she will take a post graduate course in special studies.

Conductor Seymour Evans has been granted a four months' vacation from the service of the C. & D.

Mr. and Mrs. Clair B. Wells, nee Gertrude Reis have taken a trip to the lakes.

E. M. Gallen, of the Mammoth, leaves tomorrow for Rochester, N. Y.

L. T. Furnas left today for Detroit. Otto Badertscher, of Chicago, is spending his vacation with his parents, Mr. and Mrs. Peter Badertscher, of north Jackson.

Miss Bertha Nicholas, who was here attending the graduating exercises in which her friend, Miss Winnifred Meyers took part has returned to her home in Bluffton.

Mr. and Mrs. Theo. Helmkamp and Miss Mayme Helmkamp, of Delphos; Miss Anna Helmkamp, of Fort Jennings, and Henry Greve, of Frankfort, Ind., were the guests over Sunday of Henry Kemper and family, of north Elizabeth street.

W. H. Mattingly left Sunday morning for a visit in Tipton, Logansport and Indianapolis. While in the latter city he will attend the installation of a new council of the Knights of Columbus.

Rev. Prof. Emer E. Krauss is in the city in the interest of the Chicago Lutheran Theological Seminary. He is the guest while here of Rev. F. P. Bossart, and a relative, Samuel K. Krauss, of the firm of Krauss & Ebersole.

Mrs. Fred Dufresne, who has been ill for the past four weeks, is again able to be out.

W. B. Klenke is home after a two weeks' absence on professional business, the first portion of which time was spent in Little Rock, Ark., and the latter part in Washington, D. C.

The Ladies' Aid Society will hold their monthly meeting at the home of Mrs. Amburst, on the Findlay road, July 3d.

Miss Stella Louthan, of north West street, is visiting friends in the south-eastern part of the state.

## MORE

Men Added to the Force.

City Engineer

Appoints J. C. Cronley as Assistant,

And Selects Three Others as Employees in His Department.

Appointments Confirmed, Contract for Kibby Street Improvement Awarded and an Inspector Appointed.

The city council met in regular session last night with president Davis in the chair and the following members present: Baumgardner, Haeg, Linderman, McCullough, Jameson, Clark, Sherman, Hoyt, Jones, Kline, and Scully.

Minutes of last meeting were read and approved. C. A. Metchie and the Moore Bros. Co. were granted permission to store building material on north Main and east Market street respectively, the street committee to designate what portion of east Market street may be used so as not to interfere with street paving.

Petition for gas lights was referred to the light committee. The Pennsylvania Co. offered to re-pave the Pennsylvania avenue between West and Elizabeth streets, providing the city keep up the street hereafter and not require the construction of sidewalks on the north side of the street. Referred to the street committee.

Joe Meyer of the Electric Rail Way & Light Co. asked for a franchise to construct and maintain an underground system of pipes to furnish steam heat and power throughout the city was referred to the street and finance committee.

The paving committee recommended that contract for the west Kibby street payment be awarded to C. H. Wells and that Logan block be used. The report was adopted.

Recommendation of the committee that permission be granted for the holding of a fire department and band tournament in this city in August was adopted.

Mayor's report of fines and licenses collected was filed.

Clerk reported one bid offered by Jacob Custer for construction of the east Elm street retaining wall, which was referred to the bridge committee.

Application of Justice W. E. Reilly for habeas corpus for his office was referred to the finance committee.

The engineer reported that he had too much work in his department for the present force and announced the appointment of John C. Cronley as assistant engineer, Z. Biedgett as a paving inspector and George Jordan and Samuel Mowery, as sewer laborers.

The finance committee recommended bills as follows:

Fire fund	\$1072.16
General fund	1581.54
Electric Light Co.	1235.00
Gas Co.	275.25
Police fund	1004.04
Poor fund	25.27
Sanitary fund	285.33
Sewer fund	939.93
Sidewalk fund	40.10
Street fund	1718.14

Resolution allowing the bills was adopted.

Resolution awarding C. H. Wells, contractor for paving of west Kibby street was adopted.

Water Works Secretary J. N. Hutchinson made the following report for June:

Amount on hand	\$6,039.63
Collected	4,711.77
Expended	1,817.83
Balance	8,933.76

Ordinance to grade Metcalf street from the Elida road to McKibben street was read.

The solicitor stated that the proposition submitted by the Pennsylvania railway Co. was not made in good faith but was made for the sole purpose of delaying the improvement and could not be acted upon by the council.

Motion to suspend the rules and place the ordinance on its passage was lost.

Contracts and bonds of C. H. Wells and S. Ruff, improvement contractors, were accepted and approved.

Supplies for the fire department were ordered purchased.

Engineer estimated cost of the proposed Second street improvement at \$37,166.00.

Engineer reported an estimate of the cost of the proposed grading of Elizabeth street south of Circular street, at 22 cents per yard. Received and filed. All of abutting property will not stand the assessment for the proposed improvement.

Proposition from the Studebaker people for a \$300 street sweeping machine was referred to the street committee.

Clerk reported two bids received for the proposed issue of \$1,000 worth of Grand avenue grading bonds. The bid of the Crogan bank of Fremont was the highest, a premium of \$13.50 being offered and the bonds were ordered delivered to that bank.

Street commissioner was instructed to repair fountains at Main and Kibby, and Main and Vine streets.

Mr. Baumgardner recommended the appointment of John Sloniker as inspector of west Kibby street improvement. The appointment was confirmed.

Street committee was instructed to recommend location for drinking fountains.

A car load of gravel was ordered for the street commissioner.

Adjourned.

## GUILD TOOK AN OUTING.

The Junior Guild under the leadership of Prentiss Lawrence, enjoyed a two days' outing last week. Orville Zurnmely accompanied them as their chief cook. All report a splendid time especially when the boys were on guard duty. They intend to camp out again before fall and stay a longer time. Good work is being done in the Guild. This is a branch of the Young Men's Guild of Grace church.

## The Best Soda.

## ATTENTION, CO. K!

All members of Company K are ordered to report at the armory this evening at 8 o'clock, sharp, to make arrangements for the 4th of July.

Big bargains in Children's Hats for the Fourth. Closing them out. Mrs. F. Light, 134 north Main.

## A GALE

Blew Over the Country Last Night.

The was a prospect last night of a relief from the torrid weather which has prevailed for the past week. About 10 o'clock the sky was overcast with clouds and a stiff wind blew up which by 10:30 had almost become a gale. Trees were blown down in several parts of the city, and a heavy storm seemed imminent, but no rain fell in the city. After a brief period the wind abated and the night became torrid again.

All Trimmed Hats at less than half price at Mrs. F. Light's, 134 north Main. Get yours right away.

## NOTICE, A. O. H.

There will be a special meeting this evening in Wheeler hall of division No. 1, A. O. H., at 7:30 o'clock. By order R. S.

## TO FT. WAYNE

Remains of Michael Nolan Taken for Burial.

Rev. A. E. Manning officiated this morning at the last sad rites over the remains of Michael Nolan, whose death was announced yesterday. The requiem mass was sung at 7 o'clock at St. Rose church and the body was taken to Fort Wayne at 8:30 over the Pennsylvania road for interment.

Every one of our \$1 and \$1.50 Hats will be sold for 25c. Get one for the Fourth at Mrs. Light's.

\$1.00 SANDUSKY, \$1.25 CEDAR POINT EVERY SUNDAY.

Take a day's outing on the L. E. & W. Sunday. Take special, leaves Lima, 7 a. m.; leaves Sandusky 6:30 p. m.

\$2.25.

Thomson Dry Goods Co. 238-235 MAIN STREET, NORTH.

# A TEMPTING OFFER

Made to the Lima Locomotive and Machine Co. by City of Norwalk.

**A Bonus of \$110,000 Tendered**

Together With a Free Tract of Land for the Location of the New Shops the Company Must Have—Proposition Submitted to Lima Board of Trade.

Tomorrow evening the members of the board of directors of the Lima Board of Trade will be called upon to consider a proposition that is of vital importance to the city of Lima. By their action or the success of the action they will take in the matter to be up for consideration depends the perpetuity of one of the most valuable institutions the city of Lima now has within its borders. What action this board of directors will take can not yet be outlined but it is safe to predict that they will launch a plan that if carried out will be to the best interests of the city and its future prosperity and whatever practicable plan is recommended or adopted should have the unanimous support and energetic co-operation of every citizen of Lima.

It has been known for some time that the present shops occupied by the Lima Locomotive and Machine

Co. are wholly inadequate for the continually increasing output of locomotives and other machinery manufactured by this company and as there is no room to increase the capacity of the shops in their present location it is also well known that the company is in search of a new location and that the enterprising city of Norwalk, Ohio, has already made flattering and tempting overtures to the company in an effort to have the valuable industry removed to that city. As an inducement for the removal of the plant to Norwalk the board of trade of that city has offered the company a tract of land and a bonus of one hundred and ten thousand dollars in cash with which to build and equip shops that will be adequate for the firm's extensive manufacturing business.

Prefers Lima.  
The industry of the Lima Locomotive

and Machine Co., was born in Lima and has grown to very extensive proportions through the good management of the officials together with the natural advantages afforded by the city and it may be truthfully said that the company prefers this city to any other for a location for its shops and will be willing to build and equip new shops here with less assistance from the citizens than would be asked of any other city in the country.

A proposition has been submitted to the Lima board of trade by the Locomotive and Machine company but secretary Numan when seen by a Times Democrat representative this morning declined to give out the details of the proposition until such time as the matter has been submitted to and considered by the trustees of the board. For this purpose the trustees will meet in the office of county auditor George Feltz tomorrow evening.

The following notice of the meeting to be held tomorrow evening is issued by secretary Numan:

**Notice of Meeting.**  
There will be an important meeting of the board of trade trustees, Wednesday evening at 7:30 July 3d, at Auditor's office.

This is the most important meeting ever held, as we have a proposition from a well known established manufacturing company that will employ from 400 to 2,000 men and don't ask Lima for a dollar.

Here is something that we can not afford to lose, and will be fully explained at the meeting.

Yours truly,  
W. F. NUMAN, Secy.

## DIVORCE

And Alimony Granted  
Mrs. Pearl Beain.

Decree Issued on the Ground  
of Cruelty

And the Doctor Must Pay the  
Plaintiff \$550 Within the Year  
—Wayne Street Case on  
Again.

A decree of divorce has been granted to Mrs. Pearl Beain, wife of Dr. Ulysses S. Beain, and the ground of cruelty according to the journal entry was supported, the defendant entering no denial to the allegations made in the petition.

In addition to granting the plea for divorce, the court allowed the plaintiff \$550 alimony, which is to be a lien on the defendants real estate. The doctor is ordered to pay his wife \$100 at this time, \$200 at the end of six months and \$250 at the end of one year.

**Denies Liability.**  
J. C. Linneman is the answering defendant to the petition filed by Jennie Burns, the suit being brought to recover a disputed difference in the sale of furniture belonging to the old Burnett house when Mr. Linneman built the Norwalk. The latter claims that he was only expected to pay for such new furniture as was bought of F. E. Harman, and that when Burns & Spratt bought the new billiard tables in exchange for the old ones, Mr. Linneman supposed that the difference had been paid by the plaintiffs in the action, and he therefore denies any responsibility.

**At It Again.**  
After a few days intermission Judge Cunningham resumed again today over another session of the Wayne street paving case, the witnesses examined being principally members and ex-members of the city council who took the stand in the interest of the defense. It was a warm day and a warm subject, and the weather was an excuse for all who were interested to shed coats and vests and dispense with the dignified attitude which usually surrounds a court of justice of the higher degree.

**Will Weigh the Question.**  
Judge Cunningham has taken the question of a new trial for Clem Dickman under consideration until Friday, when he will render his decision on the argument submitted yesterday.

**New Cases.**  
American Pump company, vs. T. E. Geiger, transcript.

Got on good terms with yourself and enjoy the cool breezes at McBeth's Park.

## WESTERN

Ohio Company Will Build  
a Branch.

A Spur of Track Will Connect With  
Swanders, Anna and Botkins  
From Wapakoneta.

Despite the intense warm weather, active work on the grading of the Western Ohio Traction Company, the line to be built between this city and Sidney, began this morning, says the Piqua Call.

There are thirty teams and forty-five men at work today and this force will be increased daily until it becomes large enough to prosecute the work to an extent that will be satisfactory to the officials of the company. The force is working in three sections in the vicinity of Swift Run. At present they are encountering more or less stone, and the work will progress very slowly.

F. E. Carpenter, General Manager of the Traction Company, will be here in the morning to look after the interests of the road. Tonight Superintendent of Construction Bryan, of Cleveland, will arrive here and take charge of the force of men now at work.

On Friday evening at a meeting of the Cemetery Trustees, the Western Ohio People were granted the right of way to construct their line along the berm bank of the canal, in the rear of the residence of J. W. Killian, Superintendent of the Cemetery. The company is also at work securing the right of way for the construction of a line between Sidney and Wapakoneta, taking in Swanders, Anna and Botkins.

Unlocks the gates of happiness, makes the music and sings the wood; lifts one up in the sunshine of life. That's what Rocky Mountain Tea will do. Ask your druggist.

LEE I. THAYER

Is Dangerously Sick in a  
Cleveland Hospital.

The many friends of Lee I. Thayer, who has recently undergone two operations for appendicitis, will be interested to know his present condition. He is at Cleveland suffering from an acute attack of pneumonia and his father, who has just arrived from there, says his recovery is doubtful. On the 26th of June, Lee's mother, who was with him during his illness at Rochester, N. Y., acting under the advice of attending physicians, started for home with him, but the trip was more than his weakened system could stand and when they reached Cleveland his condition was critical.

Those acquainted with this excellent young man hope that his life may be spared and that his years of college and seminary training may bear fruit in blessing far away China, where he has been assigned to missionary labor.

## KISSES

Sold at Five Cents Each  
at Findlay.

Men Who Invested Received  
Candy Kisses.

Then the Church Ladies Advertised  
the "Real Thing" to Sell for  
One Dollar Each but the  
Boys Wouldn't Buy.

A dispatch from Findlay says: "A row of maidens, dressed sanely and pretty as an artist's ideal, stood before a tent at the 'boulevard carnival' given by the Ladies Aid Society of the First Presbyterian church Friday. In great, large letters, posted over their heads, appeared this message:

"Kissing booth, a kiss for five cents."

"Young and old men spent nickles like drunken sailors but when they got inside each was handed a candy kiss."

"A general kick was made and in a few minutes another sign went up. It read: 'The real thing!'

"Not a man was willing to put up this Pan-American price for the osculatory exercise and the treasury was not augmented. Now the conservative element of the church is mad. Conventional members said it was madness to display the 'real thing' sign and the pretty girls who could not realize \$1 for a juicy smack have a poor idea of young men of the town. "The carnival contained burlesques on attractions denounced when they appeared in the Elks' carnival recently."

Hives are a terrible torment to the little folks, and to some older ones. Easily cured. Doan's Ointment never fails. Instant relief, permanent cure. At any drug store, 50 cents.

## FUNERALS.

Remains of Two of Death's  
Victims Laid to Rest.

The funeral of the four months old daughter of Mr. and Mrs. J. M. Sutton, of north Collet street, was held from the Wayne street church of Christ this afternoon at 2 o'clock, Rev. Rundige officiating. Interment was made in Woodlawn cemetery.

The funeral of Mrs. Clara Lego, daughter of Mr. and Mrs. H. D. Young, of 1209 east Market street was held at 4 o'clock this afternoon and the remains were consigned to a final resting place in Woodlawn cemetery.

## THE IDLER.

Carrie Nation a Tailorress.  
Lyons—"Did you know Carrie Nation was a tailorress?"

Hicks—"No is she?"  
Lyons—"Don't she make all the saloon keepers close."—Aumbulance.

W. T. Copeland Appointed.

W. T. Copeland, who recently represented Ohio in the head camp meeting of the modern Woodmen of America, has received notice of having been appointed by the Head Council as a member of the mileage and per diem committee for the year.

W. H. Crimmel Entertains.

Last evening W. H. Crimmel, of the Buckeye Pipe Line department of telegraphy, entertained a party of gentlemen friends on the eve of his departure on his annual vacation. Plates were laid for twelve on tables that were spread upon the spacious lawn at his home on west North street and the evening was delightfully spent by the guests. Mr. H. C. Hicks, representing the Baldwin piano manufacturing firm was present from Cincinnati and was a guest of honor. Mr. Hicks is a clever entertainer and assailed greatly in making the "stag" event one of pleasure. All voted Mr. Crimmel the premier of hosts.

Hot Weather Victims.

The Buffaloes will graze in their wallow again tonight and lead a fast trail across the prairie with several new members of the herd in the wake. Requests for membership are many, but the number is necessarily limited on nights of initiation in order that each new candidate may be given the full benefit. Those who are present when the first candidates locked horns with the bison will not overlook the opportunity of another evening of enjoyment.

A Connecting Link.

The Western Ohio Electric Railway company that is building the electric line from Lima to Wapakoneta, St. Marys, Minster and the towns in the western part of Shelby county on to Sidney and then to Piqua have begun securing the right of way between Sidney and Wapakoneta, taking in Swanders, Anna and Botkins with the intention of constructing an electric line connecting these points. More than half the right of way has been secured during the past few days.

Troy Record.

Objects to Cruel Sport.

Humanity at large feels instinctively the sense of justice, if not of kindness that prompts universal civility, and it responds to it in manifold and touching ways. Attention has been called for some time to the atrocious slaughter of pigeons, after imprisoning them; shooting them at the mo-

ment when giving them their freedom. Oh, for shame, shame upon this or any country for such a cowardly sport. It would be interesting to know what evence the society for the prevention of cruelty to animals can give for such neglect of duty.

Read This in the Cellar.

Lima is sweltering in the same heat that is prostrating hundreds in the larger cities, but no serious cases have been reported of collapse. The thermometer in the shade of west High street registered 105 at 2:30 this afternoon.

"Dutch" John At His Old Stand.

John Schmeider, who has been employed at one of the principal depot restaurants for some time has accepted his former position at the bar of the Lima Club cafe at Main and High streets.

South Side Catholic Ladies.

The ladies of the south side Catholic church, will hold a lawn fete at the home of Mr. and Mrs. James Suifred on south Main street on the evening of July 10. The net proceeds of the event will go to the new church fund and the affair should be liberally patronized.

He Wears Cheap Ones Now.

The genial Peter Laughlin, of the Mammoth, is wearing a pair of cheap-rimmed spectacles today. While out walking Sunday evening he lost his gold rimmed pair and up to date has not been able to ascertain who found them.

Enjoy a ride on the electric cars to McBeth's Park these warm evenings, 20 cents round trip, including admission. Two performances daily free.

CINCINNATI VS. NEW YORK.

\$1.50 to Cincinnati and return via the C. H. & D. Sunday, July 7th. Trains leave Lima at 2:10 and 6:50 a. m.; leave Cincinnati, returning at 5:20 and 9:50 p. m.

CHORAL SOCIETY

Will Resume Regular Meetings in August.

At the last regular Tuesday evening meeting of the Lima Choral Society it was decided to adjourn until the second Tuesday in August. By that time the trustees will have the hall repaired and put into inviting shape. The music committee will have the year's work laid out, and the officers on that date hope to see a large turnout of both old and new members.
